REASONS FOR ALLOWANCE

Claims 8-29 are pending in this application.

The following is an examiner's statement of reasons for allowance: The closest prior art Madsen *et al.* (US 5,741,662) taught the use of a composition of the xanthene dye Rhodamine 6G and sodium hydroxide as a microorganism staining agent. The reference did not teach or suggest however the use of the alkali substance at a concentration of 15-30 wt. %. Similarly, Hurley *et al.* (US 4,940,834) taught the use of a fungal staining agent comprising sodium hydroxide and the diazo dye Trypan Blue. The reference did not teach or suggest however the use of the specific diazo dye Chicago Sky Blue 6B and the use of the alkali substance at a concentration of 15-30 wt. %. A survey of other prior art did not discover any other instance wherein these particular dyes occurred in conjunction with an alkali substance at 15-30 wt. %.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Claims 8-29 are free of the art and are allowed.
